General Home Safety Issues

Identify potential trip hazards

Are your house numbers easily visible from both directions at the street?

Is there a family escape plan in place?

Are there any family members that require assistance to escape?

Do all bedrooms have two ways out?

Do you currently have a monitored fire alarm?

Do you always close doors when you leave rooms?

Do you have carbon monoxide detectors in your home?

Does your home have at least one smoke detector on every level?

Smoke detectors in proper locations throughout the home

Test smoke detectors as recommended by manufacturer

Be familiar with battery needs of the smoke detector

Identify potential electrical safety issues in the home

Evaluate kitchen and cooking dangers
